Let PJ Roof and Wall Coatings protect your home from winter storms and make your house look the best in the street. PJ Coatings is the only Quality Assured roof restoration company in WA and has been performing **QUALITY** restorations for over 35 years!

Using our unique Tileflex 2000 coating products, which contain special elements that protect your roof against dirt and grime, we can improve the appearance of your home and increase its value.

Call us now to take advantage of our great offer – a Free Digital Energy Monitor plus a Free "Energy Smart Energy Saver"* when you purchase a roof restoration.

*Offer not to be used in conjunction with any other promotion. Offer closes 30th June, 2011.

† See PJ Coatings guarantee for terms & conditions.

NOTE: A qualified electrician is required to install the Energy Monitor - approximate cost of \$137.50.
